RSVP: 12/10/2014: Fran Trimpey, 412-481-3240 x104; frimpey@centerforvictims.org

About The Human-Computer Interaction Institute:

The Human-Computer Interaction Institute is a living laboratory where they investigate the relationship between computer technology, human activity and society. Founded in 1993, the HCII is a place where they work to understand and create technology that harmonizes with and improves human capabilities, goals, and social environments through interdisciplinary research and education in design, computer science, and behavioral and social sciences.

About Center for Victims:

Center for Victims is the most comprehensive and inclusive provider of services, advocacy and education for all victims of crime in Allegheny County and in Pennsylvania. More information is available at www.centerforvictims.org
